**OBJECTIVE:** Seeking a **Software Developer** role where I can apply my skills in **Java, backend development, and web technologies** to contribute effectively to organizational growth while continuously learning and enhancing my expertise.

## EDUCATION

### Sir M Visvesvaraya Institute of Technology, Bangalore

- **Bachelor of Engineering (B.E.)** – Information Science & Engineering
- **CGPA: 7.6 | Graduated:** June 2023

### M N Technical Institute, Bangalore

- **Diploma in Computer Science** – Department of Technical Education
- **CGPA: 6.7 | Completed:** November 2020

## PROJECTS

### Event Management System

- Designed and developed a **scalable** event management system using **Java, JDBC, and MVC architecture** for efficient event and attendee management.
- **Technologies:** Java, JDBC, MySQL, HTML, CSS (Bootstrap 5), JavaScript

### BookMyShow Clone

- Built a responsive, frontend-only clone of BookMyShow using HTML, CSS, Bootstrap 5, and JavaScript.
- Implemented interactive movie listings, a ticket booking interface, and event details to enhance the user experience.
- **Technologies Used:** HTML, CSS, Bootstrap 5, JavaScript

### Rainfall Prediction using Machine Learning

- Developed a **machine learning model** to predict rainfall patterns using historical weather data.
- **Outcome:** Improved accuracy in forecasting for better resource management and disaster preparedness.
- **Technologies:** Python, Neural Networks

### College Website

- Built a **dynamic website** displaying college information, available courses, and downloadable admission forms.
- Included sections for activity updates with images and articles.
- **Technologies:** HTML, CSS, JavaScript

## TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript
- **Frameworks & Technologies:** J2EE, JDBC, Spring, Microservices
- **Web Development:** HTML, CSS, Bootstrap 5
- **Databases:** MySQL

## INTERNSHIP

### Sain Informatix Pvt. Ltd. (August – September 2022)

- Worked on **Machine Learning using Python**, implementing predictive models and data analysis techniques.

## TRAINING

### UTL Technologies (July 2023 – October 2023)

- Completed training as a **Junior Software Developer**, focusing on **OOPs concepts and Core Java**.
